

2019 SUMMIT AGENDA

Mon Oct 28

7:00 AM - 9:00 AM CDT (2 Hours)
Registration

9:00 AM - 10:00 AM CDT (1 Hour)
Opening Remarks and Women in Cyber Security Panel: The many (and sometimes hidden) roads and paths to and within cyber
101 D
This panel will outline the common misconceptions about what skillsets are essential in the cyber field (hint: all skill sets are valuable). Panelists will share their stories on how they entered in the cyber field and advise career paths, twists and turns.
 **Steve Aleckson**
Talent Systems
Speaker
 **Elizabeth Stevens**
Past President/Executive
InfraGuard/MBAlliance
Moderator
 **Judy Hatchett**
VP & CISO
Fairview Health Services
Panelist

10:00 AM - 10:45 AM CDT (45 Min)
Women in Cyber Security Panel: Career Goals for everyone! CISOs, Entrepreneurs and Everything in Between
101 D
This panel will showcase various leaders from CISOs to entrepreneurs to independent consultants and other key roles within cyber to share strategies in expanding leadership acumen, stretch boundaries, establish networking pipelines and break down
 **Brigadier General St...**
Exec IT Director
MIT
Moderator
 **Sehar Ismail**
CEO
Legavi/Armon
Panelist
 **Milinda Rambel Sto...**
VP & CISO
Provation Medical
Panelist

10:45 AM - 11:30 AM CDT (45 Min)
Women in Cyber Security Panel: Being a woman in Cyber isn't always a breeze. Hear from Cyber leaders as they share their stories and strategies
101 D
This panel will focus on common pitfalls challenges and unconscious (or deliberate) bias women face in cyber. Women on this panel will share stories and strategies to overcome obstacles, including the prevalent "bro culture" to advance their careers, first
 **Tina Meeker**
Director of GRC
Shutterstock Inc.
Moderator
 **Jill Allison**
CISO Advisor
Kudelski Security
Panelist
 **Sarah Engstrom**
CISO & VP of IT Security
CHS, Inc.
Panelist

11:45 AM - 1:00 PM CDT (1 Hour, 15 Min)
Women in Cyber Security Networking Lunch
Seasons, 2nd Floor
 **Senator Melissa Wiklund**
State Senator
Minnesota State Senate
Speaker

1:00 PM - 5:30 PM CDT (4 Hours, 30 Min)
MedDevs + Health Delivery Orgs + Regulators Gather to Collaborate on Device Security and Safety:
101 D
The Cyber Security Healthcare and Med Device half-day event brings healthcare providers and medical device manufacturers together with security experts and others to advance medical device safety and security. Participants include healthcare delivery
 **Ken Hoyme**
Director Product Security
Boston Scientific
Moderator
 **Allison Miller**
Vice President, Global E...
Octum
Moderator
 **Jay Rachtke**
Director of Product Sec...
Thermo Fisher Scientific
Speaker

1:10 PM - 2:00 PM CDT (50 Min)
Technical Track 1-A: Blocks and Chains: Realities of Digital Ledgers in Enterprise Security
101 E
This presentation will discuss the impact of blockchain, or digital ledgers, on the enterprise. After the crypto currency crash,
 **Michael Anton**
Sr. Product Manager
Kudelski Security
Speaker

1:10 PM - 2:00 PM CDT (50 Min)
Technical Track 1-B: Protecting Customers from Themselves
101 F
The cyber threat landscape is expanding with trojan and fishing initiated ransomware and malware attackers. Attackers continuously leveraging new attack vectors and rendering our defenses ineffective. The "Zero Trust" security model looks like a
 **Yasir Liaquatullah**
VP Products
A10 Networks
Speaker

1:10 PM - 2:00 PM CDT (50 Min)
Technical Track 1-C: Tackling the Talent Shortage Problem: An Honest Look at Challenges Related to Finding and Retaining Information Security Talent.
101 G
It's a fact, there aren't enough of us to go around. The unemployment rate is already at 0%, and the future looks bleak for people in need of information security talent. Luckily, the industry is filled with people and organizations willing and able to do
 **Evan Francon**
CEO & Founder
FRSecure
Speaker

1:10 PM - 2:00 PM CDT (50 Min)
Technical Track 1-D: Cyber Range for Technical Staff
101 H
Join others on a cybersecurity range as a blue team member to protect the range network and systems. This session will put you in the hot seat to learn new tactics and techniques as well as new technology that can make the whole process easier and
 **Eric Ebner**
CTO
Protocol 46
Speaker

2:10 PM - 3:00 PM CDT (50 Min)
Technical Track 2-A: Developing Compliant Patterns for Modern Technologies
101 E
This session will articulate the method by which any IT Security organization, regardless of size, can develop compliant patterns for modern technologies. We will discuss overall strategy and walk through 3 real-world examples where teams worked the
 **Stephen Podobinski**
Lead Information Security Analyst
Target
Speaker

2:10 PM - 3:00 PM CDT (50 Min)
Technical Track 2-B: Secure Midnight Developer (DevSecOps) Evolution of Application Security & OWASP SAMM
101 F
This presentation will include practical suggestions aimed at increasing ability to measure, manage, and improve Information Security Programs, while forming stronger relationships with product owners and developers. Presentation will cover what
 **Yan Kravchenko**
Information Security Architect
Cancer
Speaker

2:10 PM - 3:00 PM CDT (50 Min)
Technical Track 2-C: Using Deception to Close your Detection Gaps
101 G
This session will address how deception technology creates a fabric across the entire enterprise to close detection gaps, provide internal visibility, help meet compliance requirements, and defend against in-network attackers.
 **Joseph Salazar**
Ativa Networks
Speaker

2:10 PM - 3:00 PM CDT (50 Min)
Technical Track 2-D: Cyber Range for Management
101 H
Join others to take part in a cybersecurity response table-top exercise to protect and defend a network. This session does not require technical experience as it works the process in a team environment. As a member of the defense team, you will
 **Eric Ebner**
CTO
Protocol 46
Speaker

3:10 PM - 4:00 PM CDT (50 Min)
Technical Track 3-A: Your Security Controls are Failing and You Don't Know It
101 E
Most of us base our security on assumptions. We assume our security tools, people and processes are working, vendor default configurations are right for us, if something was working before it's still working now, and ongoing configuration changes are
 **Christine Stevenson**
Security Sales Engineer
Verodin
Speaker

3:10 PM - 4:00 PM CDT (50 Min)
Technical Track 3-B: The Future SOC: How Machine Learning and Crowd-Powered Big Data is Transforming Security
101 F
Data science applied to vendor-independent data, multi-device telemetry, and world-class threat intelligence is rapidly transforming the future of security operations. By pairing machine and human intelligence, organizations with limited resources
 **Aaron Hackworth**
Senior Executive & ML Engineering Fellow, Counter Threat Unit Research Group, Office of the CTO - Secureworks
Secureworks
Speaker

3:10 PM - 4:00 PM CDT (50 Min)
Technical Track 3-C: Understanding Third-Party Risk in the Cloud
101 G
Abstract: No matter how strong your organization's security strategy is, your cloud data is likely most at risk via your third-party cloud applications. These apps are often much more susceptible to hackers than other parts of your security perimeter. Your
 **Damian Chung**
BISO
Veeva Systems
Speaker

3:10 PM - 4:00 PM CDT (50 Min)
Technical Track 3-D: Cyber Range for Technical Staff
101 H
Join others on a cybersecurity range as a blue team member to protect the range network and systems. This session will put you in the hot seat to learn new tactics and techniques as well as new technology that can make the whole process easier and
 **Eric Ebner**
CTO
Protocol 46
Speaker

4:10 PM - 5:00 PM CDT (50 Min)
Technical Track 4-A: Zero Trust, CARTA, IoT, CJIS, CSF - OMG, How can I Address all of These?
101 E
You may have heard all of these as buzz words, you may have been asked about them, or you may be digging into some or all of these topics in more depth. But why are they important and how can you address them with your limited time and resources?
 **Peter Romness**
Cybersecurity Principle - US Public Sector
Cisco Systems
Speaker

4:10 PM - 5:00 PM CDT (50 Min)
Digital Transformation - Incorporating Security Intelligence and Automation Into Digital Transformation
101 F
This session will focus on the experiences Microsoft is seeing with organizations embarking on digital transformation journeys. We will discuss overall tactics and solutions organizations are able to incorporate to enable intelligence and automation of cyber
 **Chris Raschke**
Advanced Security Architecture - Global Black Belt
Microsoft
Speaker

4:10 PM - 5:00 PM CDT (50 Min)
Technical Track 4-C: Dividing by Zero: Establishing Privileged Access Security for Null-Trusted Humans and Robots
101 G
In this talk, we'll look at the evolution of the zero-trust security model and how the move to more automation and distribution has led to challenges related to powerful access for traditional and cloud environments. Along with a registration to modern
 **Brandon Trafanstedt**
Global Director, SysEng
CyberArk

4:10 PM - 5:00 PM CDT (50 Min)
Technical Track 4-D: Cyber Range for Management
101 H
Join others to take part in a cybersecurity response table-top exercise to protect and defend a network. This session does not require technical experience as it works the process in a team environment. As a member of the defense team, you will
 **Eric Ebner**
CTO
Protocol 46
Speaker

5:00 PM - 6:15 PM CDT (1 Hour, 15 Min)
VIP Reception (Invitation Only)
Seasons, 2nd Floor
Thought Leaders connect at this Invitation Reception to launch the 9th Annual Cyber Security EXPO & Summit

6:15 PM - 8:30 PM CDT (2 Hours, 15 Min)
International Dinner
Lounge A, 2nd Floor
As the cyber threat reaches beyond national borders, so must collaboration to prevent cyber attacks. The Cyber Security Summit International Committee's mission is to unify defenses in the cyber domain through 1) An international consortium increasing
 **Harshal Mehta**
VP, CISO
CWI
Speaker
 **Dr. Massoud Amin**
Professor (Co)founder/P...
University of Minnesota
Panelist
 **Sean Costigan**
Professor
George C. Marshall Euro...
Panelist
