

Advertising for the Cyber Security Summit Guide must adhere to these specifications in order to ensure proper reproduction in printed and electronic materials.

PDF/X-1a or PDF/X-4 format files preferred

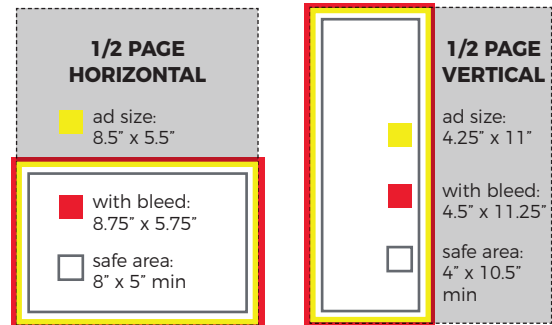

- ☑ Image resolution of graphics placed into the document must be at least 300 dpi at 100% of print size.
- ☑ CMYK or RGB colors only. Spot/Pantone colors will be converted to CMYK, which cannot guarantee color match.
- ☑ All ads require an **additional .125"** bleed on all sides. *(Bleed is content that runs off the page and gets trimmed.)*
- ☑ **KEEP IT SAFE!** Text and graphics not intended to bleed need to be a minimum of **.25"** from the trim edges. *(This is called the "safe area" and allows for shifting variances during printing.)*
