# Cyber resilience starts with Red Sift

**Automatic.**  
**Continuous.**  
**Proactive.**

## Visibility

brand, assets, supply chain and email are expansive. How do I protect what I can't see?

## Complexity

Increasing volume of threats, siloed tools with data discrepancies, plus resource shortages are making it harder than ever to stay secure.

## Regulation

New requirements for GRC, industry standards, cyber insurance and board reporting require new tools and approaches.
